KNOWLEDGE PARTNERS

Organization	Research Centres & Groups	Knowledge Specialization
Schlegel Villages & University of Waterloo	RIA - Research Institute of Aging	Specializes in research for Dementia, culture change, workforce development, and technology.
McMaster University	McMaster Institute for Research on Aging (MIRA)	MIRA works to optimize the health and longevity of Canada's aging population through leading-edge research, education and stakeholder collaboration.
University of Toronto	The Institute for Life Course & Aging	Facilitates research on aging from a life course perspective, including population aging, and the aged in the social, psychological and health sciences.
Canadian Institute of Health Research	Institute for Aging	The Institute of Aging supports research and promotes healthy aging. It focuses on understanding, preventing, diagnosing, and treating age-related conditions, while improving care and support systems. Its mandate centers on aging individuals within an aging society and how diseases affect the aging process.
Hamilton Health Sciences & McMaster University	GERAS Centre for Aging Research	Conducts a wide range of clinical research in brain health, bone health, resilience and frailty, medical devices, and more. Currently offers e-learning content.

FUNDING

Organization	Grant name	Purpose	Amount (CAD)
Age-Well	Emerging Entrepreneur Award in Technology and Aging	Supports the development of emerging entrepreneurs to create and grow an innovative start-up with potential social and economic impact in Canada.	$50,000
IA Knowledge Mobilization	Betty Havens Prize	Recognizes an individual, team or organization that has advanced the mobilization of research in aging at a local or regional level	$20,000
IA Knowledge Mobilization	CIHR general pool grant	Provides funding for planning and dissemination activities in research areas addressing CIHR-IA's mandate areas identified in the 2023-2028 Strategic Plan: Reframing Aging Empowering Older Adults.	$25,000
envisAGE	Call for Innovation	Support collaborative projects centred around the integration of a technology offered by an incorporated Canadian small and medium-sized enterprise (SME).	Up to 25% of eligible expenses
Government of Canada	Health Care Policy and Strategies Program	Provides funding for not-for-profit institutes that aim to improve the accessibility, quality, sustainability and accountability of Canada's health care system	Not listed

PRODUCTION COMPANIES

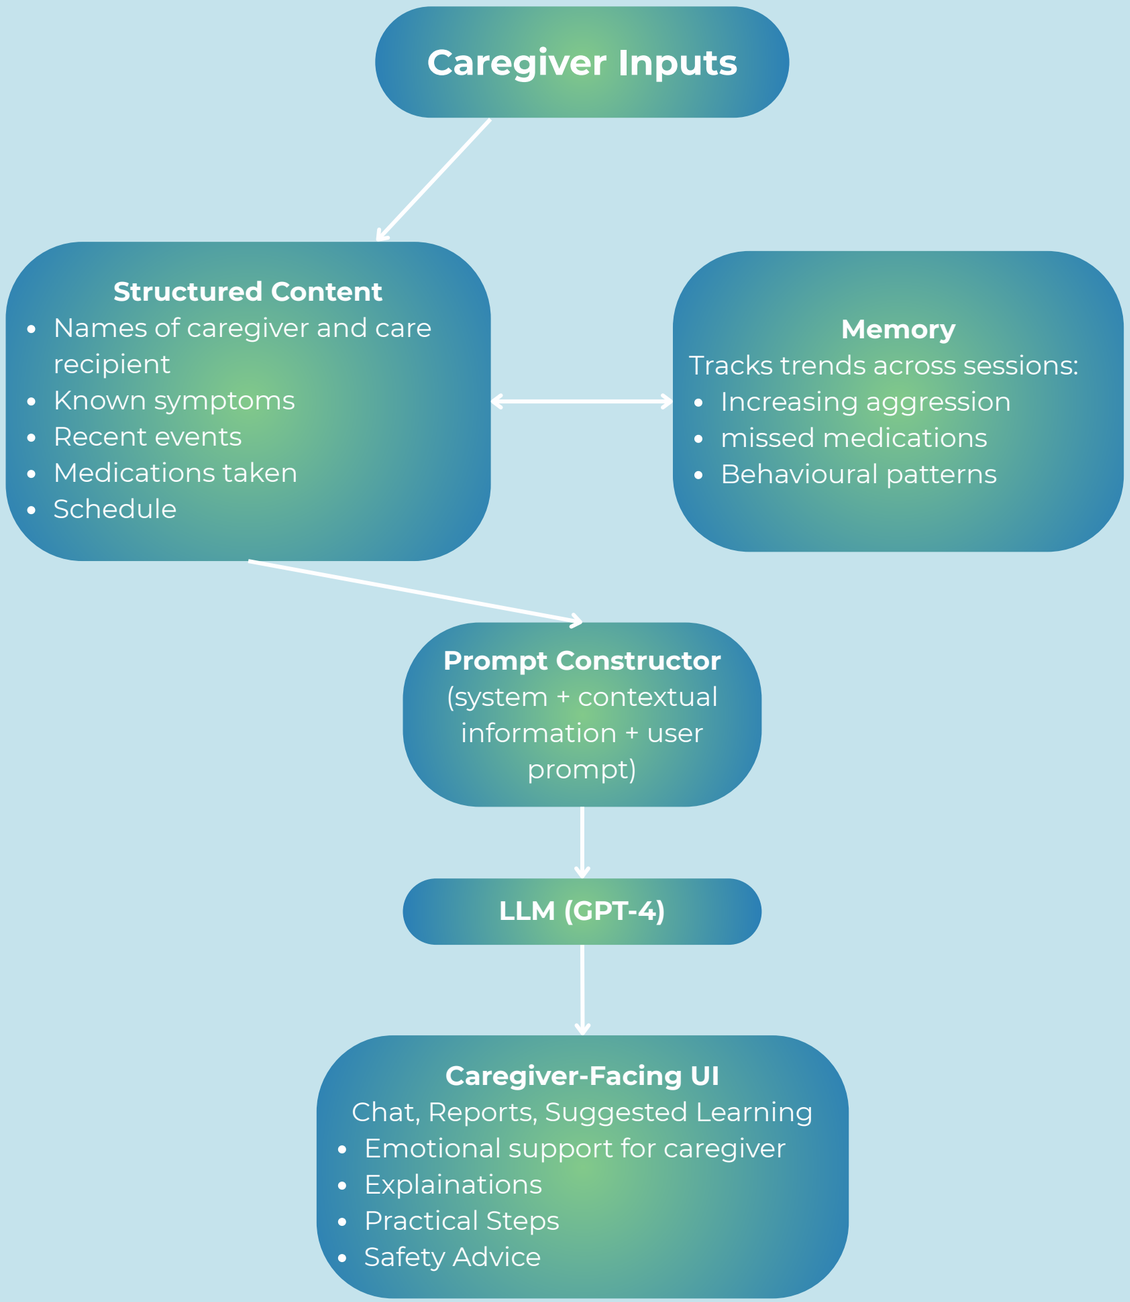
Organization	Production/ Product
broadcast2world	Animated videos, specializing in story telling in the healthcare space to humanize medical care, simplifying complex biomedical topics, and more.
AXS Studio	Animations and augmented reality (AR) to view simulations (i.e. care recipient communication, medical conditions) in user's environment in topics related to medicine, health, science, and medical devices.
Medical Video Production (MVP)	Medical and health based e-learning videos & animations, quizzes, games, interactive simulations, and more.

SYNCING OF EXTERNAL WEARABLES

Component	Integration Method
Apple HealthKit	Use iOS HealthKit framework to access heart rate, steps, sleep, and fall detection data from Apple Watch.
Fitbit Web API	Use Fitbit Web API to fetch similar data from Fitbit devices.

ARCHITECTURE DIAGRAM

System Overview

AI-driven Care Assistant that combines:


- Context from caregiver logs + devices
- Natural language Q&A
- Dynamic, empathetic guidance
- Memory to track ongoing situations
