

Indigo

Indigo Bookstore App – UI & Marketing Case Study

Designing Indigo's Custom Book Clubs

A cross-functional concept by Faiza Haque

Role: Product Designer / Marketing Specialist

Project Type: Self-Initiated Redesign

Duration: 1 week

Tools: Figma, Canva

Agenda

The Opportunity

Understanding what's missing in the current Indigo app experience

The Big Idea

Introducing the Custom Book Club feature

Goals & Outcomes

What this idea solve for UX and marketing

Who it's For

User Persona: Amy

Design Direction

Fonts, colours, and visual tone choices

How It Works

Step-by-step flow of the Book Club experience

Growth Strategy

Social sharing, retention, and referrals

Impact Forecast

How can this change user behaviour and business outcomes

Conclusion

Call to action and final thoughts

The Opportunity

Indigo isn't just a bookstore—it's a lifestyle.

But the app experience doesn't reflect the emotional connection of reading or the in-store "third space" vibe.

The Problem

Readers feel
alone in digital
spaces

No sense of
shared discovery

Low repeat
engagement after
purchase

The Concept: Custom Book Clubs

A feature that lets users create, join, and personalize book clubs within the Indigo app

Core idea: *Bring back the joy of reading together—digitally*

- Create a club (public or private)
- Customize name, vibe, genre, and invite friends
- Discuss, share reactions, and set reading timelines
- Earn rewards by finishing books as a group

Product Goals

For UX/Product

Product Goals

For Marketing

Meet Amy

Name: Amy

Age: 26

Location: Toronto, Canada

Job Title: Social Media Coordinator

Plum+ Member:

Tech Comfort: High

About Amy

A horror-loving, creative bookworm who posts regularly on BookTok. She enjoys shopping at Indigo, especially during seasonal events, and often reads with friends. Reading is both a personal escape and a social hobby for Amy.

Pain Points

- No easy way to organize group reads
- Uses multiple apps to manage book clubs
- Feels recs aren't tailored to her taste
- Wants a more social Indigo app experience

Goals

- Connect with friends through reading
- Discover curated horror recs
- Build her TikTok presence
- Support Indigo as her go-to bookstore

Visual Style and Brand Fit

- Using Indigo's typeface (Futura & Apris-Regular)
- Branded colour with vibrant accent for “club” tags
- Rounded cards and soft UI elements to feel warm & inviting
- Consistent with Indigo's in-store sensory brand and current app design

How it Works

User Flow:

- Tap “Book Clubs” tab
- Browse public clubs (created communities by Indigo) or start your own
- Customize club: name, photo, tags, invite
- Add a current read + timeline
- Get alerts: “2 days left to finish,” “New chapter discussion posted”
- Earn Plum points for completing a club book

Social Media Growth & Promotion Opportunities

→Share your book club on TikTok or IG: “Join our June Thriller Club!”

→Weekly badges (e.g. “Page Turner”, “Host Hero”)

→Invite 3 friends = unlock \$5 off next read

→Push campaigns: “Your club just picked a new book!”

Projected Impact

- Repeat app use ↑ through social accountability
- Book sales ↑ via club recommendations
- User acquisition ↑ via shareable, invite-based model
- Plum Rewards ↔ community = emotional loyalty

Let's Make Reading Social Again

With Book Clubs, Indigo becomes more than a retailer, it becomes a digital community for readers.

I'd love to bring this idea to your team and help Indigo build a product that people don't just use, but return back to.

Thank you for your time and consideration, I would love to hear from you!
